

BINSON'S HOME HEALTH CARE CENTERS

BINSON'S HOME HEALTH CARE CENTERS INCONTINENCE & MEDICAL SUPPLY PROGRAM

Monday through Friday from 8:00 A.M. to 5:30 P.M.

- **Toll Free Number 1-888-217-9610**
 - TTY Relay Service at 711 For Hearing Impaired
- 24-HOUR EMERGENCY SERVICE AVAILABLE

Welcome to Binson's State of Indiana Incontinence and Medical Supply Program. We are committed to providing you with quality incontinence products. All products will need to be ordered by your physician. We also offer an in-house nursing staff for telephone consultation and initial nursing assessments.

Beginning February 1, 2008, Binson's began providing bowel/bladder incontinence supplies by FedEx, United Parcel System (UPS) or United States Postal System (USPS) through a home delivery contract with OMPP. Monthly, your products will be shipped to you unless you report changes.

Our helpful team of customer service representatives is available to answer your questions and assist with your product needs. If you have a question regarding your supplies or you did not receive your supplies, please call us at **1-888-217-9610**.

PRODUCT SUPPLIED: OSTOMY BARRIERS / FLANGES

DESCRIPTION:

- A barrier is a rounded, disk-shaped appliance that comes cut-to-fit or precut according to stoma size. The material is heat moldable and is pressure sensitive and is used to provide a barrier and coupling site for the ostomy pouch.

PRODUCT USE:

- Assemble tissue, scissors (if a cut-to-fit barrier has been selected) and barrier.
- Wash the skin around the stoma with mild cleanser and water; pat to dry or air dry.
- If cut-to-fit, measure the stoma and cut the opening to fit.
- Warm the barrier between your hands to increase adhesion.
- Remove the protective paper/plastic backing and position the barrier so stoma is in the middle of the cut out.
- Apply pressure with hands around the outer edge of the barrier to assure adhesion.
- When removing the barrier, pull down slowly from top to bottom and discard.

SKIN CARE:

- View the skin area daily. Report any redness, rash or breaks in the skin to your physician as soon as possible.
- Clean the skin thoroughly after removing the barrier. Use warm water with mild cleanser.
- Pat the skin dry or air dry before using a new liner.
- Use moisturizers on dry skin.
