Dear Valued Medline Customer:

Medline Industries, LP is issuing a recall for specific item(s) and lot(s) of Saline Wound Wash. Medline has identified that the manufacturer of the sterile saline wound wash may not have manufactured products to meet the minimum required sterility assurance level required for sterile products. Note, this issue is isolated to only the Saline Wound Wash product line, which is sourced from one manufacturing site. Using the affected product may increase the risk of patient infection, which may result in adverse outcomes and/or require medical intervention, such as prescription antibiotics. There have been no reports received of illness or injury due to this issue. Affected products are to be destroyed. Be advised that there may be item number variations based on the unit of measure ordered by your facility, indicated by an H appended to the item number(s) included with this communication. Note, there is no product difference between variations in units of measure and physical labeling will reflect the base item number (i.e. MDSALINE7). Please refer to the enclosed list for all affected item number(s) and affected lot number(s).

Adverse reactions or quality problems experienced with the use of this product may be reported to the FDA's MedWatch Adverse Event Reporting program either online, by regular mail or by fax and to Medline Industries, LP.

REQUIRED ACTION:

1. Immediately check your stock for the affected item number(s) and the affected lot number(s) listed on the enclosed response form. Quarantine all affected product. Upon completion of the below actions, please destroy affected product.
2. Please complete and return the enclosed response form listing the quantity of affected product you have in inventory. Even if you do not have any affected product in inventory, please complete and return the response form.
3. Your account will receive credit once the response form is submitted, if applicable.
4. If you are a distributor, or have resold or transferred this product to another company or individual, you are required by FDA regulations to notify them of this recall communication. Please request that customers destroy any affected product. You should include your customers' quantities on your response form.

If you have any questions, contact the Recall Department at 866-359-1704 or recalls@medline.com.

Please accept our sincere apologies for any inconvenience this may have caused. We, like you, place the health and safety of your patients first and foremost.

Sincerely,

Amer Majeed
